PART I: PRODUCT ARCHITECTURE & VALUE PROPOSITION

1. Complete Client Features & How It Works

MenusQR is an intelligent, high-end hospitality software platform designed to replace unhygienic, expensive, and rigid paper menus with permanent, dynamic smart tabletop standees powered by ultra-responsive web experiences.

1.1 The Fundamental Problem of Physical Paper Menus

In 90% of restaurants across India and globally, the paper menu is the single weakest touchpoint in the guest experience:

Unhygienic & Sticky Menus

Laminated paper cards accumulate grease, oil, and bacteria from hundreds of diners daily. Within 3 weeks, edges peel, tape yellows, and customers are disgusted.

Staggering Reprinting Costs

Whenever raw food prices surge (e.g. dairy, poultry, vegetables) or a new seasonal dish is launched, reprinting 50 to 200 menu booklets costs ₹15,000 to ₹40,000 each time—wasting over ₹1,20,000 per year.

Ugly Handwritten Pen Cross-outs

To avoid reprint costs, managers cross out prices with red or blue ballpoint pens (e.g. ₹280 crossed out to ₹360). This destroys the restaurant's premium reputation in the first 10 seconds.

No Visual Appeal or Photography

Paper menus only show boring plain text names. Diners cannot visualize dishes, leading to repetitive conservative orders rather than high-margin chef specials.

1.2 The MenusQR Dynamic Permanent QR Infrastructure

Unlike traditional static QR codes (which merely link to a clunky 20MB unreadable PDF hosted on Google Drive), MenusQR operates on a **Dynamic Permanent QR Code Routing Architecture**:

- **One Permanent Table QR:** Once laser-engraved onto physical acrylic standees, the QR code URL never changes.
- **Instant Cloud Sync (0.0s Downtime):** When the restaurant owner changes a price, hides an out-of-stock item, or switches from Day to Night theme, the live menu updates instantly on the guest's phone without requiring reprint or re-scan.
- **Zero App Installation:** Works directly inside native mobile browsers (iOS Safari, Android Chrome) in under 400 milliseconds via high-performance server-side rendering (SSR).

1.3 The 15 Signature Bespoke Design Editions

MenusQR provides 15 handcrafted design editions tailored to specific cuisines, ambiance styles, and dining cultures:

1. Technical Core Engines & Client Workflow

1.4 Instant One-Click Excel / CSV Menu Ingestion Engine

Restaurant owners do not have hours to type hundreds of dishes manually. MenusQR features an enterprise-grade **Spreadsheet Ingestion Engine**:

- **Smart Column Normalization:** Auto-detects dish names, descriptions, categories, prices, and image URLs even with messy column names (e.g. `Item Name (Required)`, `Photo Link (Optional)`, `Rate`, `Half`, `Full`).
- **Indian Dual Pricing Support:** Automatically parses Half Plate and Full Plate prices (e.g. `Half: ₹240`, `Full: ₹420`) or multi-size variants (Regular, Medium, Large).
- **Automatic Diet & Spice Tagging:** Detects vegetarian (green dot), non-vegetarian (red dot), vegan, and spicy levels (1–3 chillies) from keywords.
- **Image Formula & Cloud Scraping:** Parses `=HYPERLINK("https://...", "photo")` formulas and direct image URLs, downloading and optimizing them into high-efficiency WEBP thumbnails.

1.5 Physical Media: Luxury Walnut & Acrylic Standees

MenusQR bridges the physical-digital divide by manufacturing luxury tabletop hardware:

Laser-Engraved Royal Walnut Base

Weighted solid walnut hardwood base with anti-slip silicone feet. Does not tip over, withstands busy restaurant table wipes, and exudes 5-star elegance.

Optically Clear 3D Acrylic Plaque

4mm laser-cut, bevel-finished cast acrylic with scratch-resistant oleophobic coating. Crystal clear transparency with gold-foil QR code engraving.

Built-in NTAG424 DNA NFC Microchip

Guests can simply tap their iPhone or Android phone against the standee to open the digital menu instantly without even opening the camera app.

Table-Specific QR Tracking

Each standee is assigned a unique table ID (e.g. Table 04, Table 12, Rooftop 02), enabling automatic table attribution for contactless orders.

1.6 Live Design Studio & Real-Time Appearance Customizer

Located at `/app/appearance` and `/app/design-studio`:

- **Interactive True-Mobile Simulator:** An exact iPhone/Android viewport showing live styling with responsive container queries.
- **OKLCH Color Contrast Guard:** Enforces WCAG 2.1 AA accessibility ratios (minimum 4.5:1 for body text, 7:1 for headings) regardless of custom brand colors.

- **Self-Hosted Google Fonts:** High-speed zero-CDN font delivery for Devanagari, English, and Latin typography pairings.

1.7 Contactless Dine-In Cart & WhatsApp Direct Ordering

Diners browse visually, select Half/Full portions, add special instructions (e.g. "Less spicy, extra lemons"), and can either view the menu or dispatch their order directly to the restaurant's official WhatsApp business number with **0% aggregator commission**.

1.8 Real-Time Restaurant Analytics & Scan Insights

The owner dashboard tracks daily and hourly scan traffic, peak dining hours, top 10 most viewed items, and category conversion rates, empowering chefs to prune unpopular dishes and spotlight high-margin bestsellers.

1.9 The 5-Minute Zero-Friction Onboarding Workflow

STAGE	OWNER ACTION	SYSTEM AUTOMATION	TIME TAKEN
Stage 01	Enter Restaurant Name, City & Cuisine	Auto-recommends matching Design Edition & brand seed color	30 Seconds
Stage 02	Upload Excel sheet or paste menu list	Parses categories, prices, images, and diet tags automatically	60 Seconds
Stage 03	Pick from 15 Bespoke Themes in Live Studio	Compiles mobile CSS tokens and renders interactive preview	45 Seconds
Stage 04	Upload official logo & verify dishes	Generates branded vector QR codes for print & laser engraving	60 Seconds
Stage 05	Publish & Order Physical Standees	Activates permanent cloud link; dispatches standee print order	30 Seconds

PART II: VIRAL MARKETING ENGINE

2. 10 Viral Marketing Reels Scripts (Hinglish)

These 10 production-ready scripts are engineered for high-retention 30–to-45–second Instagram Reels, YouTube Shorts, and TikTok videos. Each script features a disruptive 3–second hook, emotional relatability, feature showcase, and high-converting CTA.

Script 01: The Sticky Paper Horror (Flagship)

Audience: Family Restaurants & Casual Dining

Core Hook: Disgust at unhygienic paper menu cards

Duration: 30 Seconds · 9:16 Vertical

Music / SFX: Clumsy diner chatter → Crisp tech scan chime → Luxury acoustic groove

00:00 - 00:05	**Voiceover (Hinglish):** "Kya aapke restaurant mein bhi customers ko milte hain yeh sticky aur greasy paper menus?"	Indian family seated at dinner table. Waiter drops greasy, dog-eared laminated card. Father picks it up with 2 fingers looking disgusted.	*Paper drop thud, low awkward hum. On-screen text: "Sticky & Dirty Paper Menus? ❌"*
00:05 - 00:10	**Voiceover (Hinglish):** "Fata hua lamination aur pen se kaat ke badle huye rates... customer ka impression first 10 seconds mein hi kharab!"	Macro zoom into yellowed peeling scotch tape, oily thumbprints, and ballpoint ink scribbled over ₹280 changed to ₹360.	*Cringe record scratch buzz. On-screen text: "Bad First Impression! ❌"*
00:10 - 00:15	**Voiceover (Hinglish):** "Ab waqt hai upgrade karne ka MenusQR ke saath. Ek sleek acrylic standee, aur ek scan mein instant magic!"	Focus pulls to neighboring luxury booth: dark royal walnut standee with gold QR code. Diner scans with phone; golden beam shines.	*Uplifting whoosh, bright crystal scan chime. On-screen text: "MenusQR Smart Standee ✨"*
00:15 - 00:20	**Voiceover (Hinglish):** "High-definition food photos, real-time prices, aur 15 royal themes jo aapke brand ko 5-star look dein."	Phone screen shows Royal Maharaja theme with steaming Dal Makhani in copper handi, crisp Half (₹240) / Full (₹420) price badges.	*Tandoor sizzle, gourmet dinner chime. On-screen text: "HD Food Photos & Live Prices 🍛"*
00:20 - 00:25	**Voiceover (Hinglish):** "Rate badhaane ho ya dish add karni ho... zero reprint cost! Ek click mein live menu update."	Happy family laughing, feast arriving at table, father giving appreciative nod while showing phone screen.	*Celebration cash chime, joyful acoustic guitar. On-screen text: "Zero Reprint Cost · Instant Updates ⚡"*
00:25 - 00:30	**Voiceover (Hinglish):** "Aaj hi apna smart digital menu shuru karein. Visit menusqr.in aur do minute mein upgrade paayein!"	3D luxury acrylic MenusQR standee floating with gold sparkles on emerald background, bold CTA button.	*Regal corporate crescendo shimmer. On-screen text: "Upgrade in 2 Mins · menusqr.in 🚀"*

PART III: GENERATIVE AI ASSET REPOSITORY

3. AI Visual Prompts & Storyboard Master Guide

Below is the complete prompt engineering repository containing **55+ photorealistic image and video prompts** (5 to 6 dedicated scenes for every script). These prompts are calibrated for Midjourney v6, Runway Gen-3 Alpha, Kling AI, Luma Dream Machine, and OpenAI Sora.

3.1 Prompts for Script 01: The Sticky Paper Horror

SCENE 1 · FATHER DISGUSTED AT GREASY MENU

```
Photorealistic vertical 9:16 portrait shot inside a bustling Indian dining restaurant. An Indian family (father with light stubble in maroon collared shirt, mother in elegant pastel salwar suit, young daughter) seated at a dark wooden dining table. A busy waiter in black apron is placing an old, dirty, greasy, stained laminated paper menu with peeling edges onto the table. The father holds it up by the very tip with two fingers, looking visibly repulsed and annoyed by the sticky grease and dog-eared corners. Warm interior restaurant lighting with soft background bokeh. Cinematic film grain, highly detailed. --ar 9:16 --v 6.0 --style raw

SCENE 2 · MACRO CLOSEUP OF PEELING LAMINATE & PEN MARKS

```
Extreme cinematic macro close-up shot (vertical 9:16) of a repulsive, worn-out Indian restaurant menu card. Plastic lamination is peeling and bubbled at the corners, smeared with oily thumbprints and yellow turmeric curry stains. Printed dish prices are crossed out with messy red and blue ballpoint pen ink with higher rates written above. Brittle yellow scotch tape is peeling off one edge. In the shallow depth of field background, a diner's hand with recoiling fingers pulls away in disgust. Raw documentary contrast, razor-sharp textures. --ar 9:16 --v 6.0 --style raw
```

SCENE 3 · LUXURY WALNUT STANDEE & GOLD SCAN BEAM

```
Cinematic vertical 9:16 medium close-up of a luxury dining table in an upscale modern restaurant. On the polished walnut table sits a luxury MenusQR standee: precision-crafted dark royal walnut wooden base holding a crystal-clear acrylic plaque with an engraved gold QR code and "MenusQR · Scan for Live Digital Menu". A stylish customer's hand holds a sleek smartphone pointing its camera at the QR code. A soft golden laser scanner beam glows horizontally as the QR code is detected. Warm amber restaurant ambiance with creamy bokeh lights. --ar 9:16 --v 6.0 --style raw
```

SCENE 4 · FIRST-PERSON POV PHONE SCREEN MENU

```
Vertical 9:16 crisp first-person POV shot of two hands holding a modern bezel-less smartphone. On the screen, a high-end digital restaurant menu UI app is displayed in Royal Maharaja theme with deep charcoal background and warm gold accents. The central card shows a steaming hammered copper handi of rich Dal Makhani topped with fresh white cream. Sharp UI typography reads: "Royal Dal Makhani", "Half: ₹240 | Full: ₹420", green veg badge, and gold "Add to Feast" button. Ambient fine dining background bokeh. --ar 9:16 --v 6.0 --style raw
```

SCENE 5 · DELIGHTED FAMILY FEAST

```
Vertical 9:16 cinematic commercial portrait of the same happy Indian family enjoying a sumptuous feast at the restaurant table. Sizzling copper bowls of butter chicken, creamy dal makhani, charred paneer tikka, and a basket of hot garlic naans sit in the center. The father, mother, and smiling daughter are happily eating, laughing, and showing their smartphone displaying the digital menu. Bright, warm, inviting restaurant lighting, vibrant commercial photography, joyful family dining celebration. --ar 9:16 --v 6.0 --style raw
```

SCENE 6 · MENUSQR 3D LUXURY OUTRO END-CARD

Vertical 9:16 commercial outro title card for MenusQR. In the center, a floating 3D premium acrylic and gold-edged table standee with glowing metallic QR code. Deep dark emerald green and onyx luxury background with subtle floating gold stardust particles and elegant anamorphic lens flare. Crisp luxury serif typography: "MenusQR", tagline "Say Goodbye to Dirty Paper Menus", feature pills: "15 Bespoke Themes · Instant Price Updates · Dynamic QR Codes", and glowing gold CTA button: "Get Started Free at menusqr.in". Apple / Stripe level marketing design. --ar 9:16 --v 6.0 --style raw

3.2 Prompts for Script 02: The Sudden Price Hike Disaster

SCENE 1 · STRESSED MANAGER WITH PRINTED MENUS

Vertical 9:16 portrait of a stressed middle-aged Indian restaurant manager sitting in his back office. On his wooden desk is a massive fresh stack of 200 freshly printed glossy menu booklets. In one hand he holds a supplier invoice for dairy and poultry with red circles, and in the other a calculator. He rubs his temples with an expression of immense financial stress. Fluorescent office lighting mixing with warm dining room light in background. Hyper-realistic documentary editorial style. --ar 9:16 --v 6.0

SCENE 2 · CLOSEUP PEN SCRIBBLE ON NEW MENU

Macro vertical 9:16 shot of a manager's trembling hand holding a red ballpoint pen, crossing out printed text "₹280" on a brand-new glossy menu card and writing "₹340" in crooked ink. The pristine paper card is ruined. Heavy emotional weight of brand compromise, dramatic low-key rim lighting. --ar 9:16 --v 6.0

SCENE 3 · INSTANT PRICE UPDATE ON MENUSQR DASHBOARD

Crisp over-the-shoulder vertical 9:16 view of a restaurant owner holding a smartphone with the MenusQR Admin Dashboard open. He taps on "Paneer Butter Masala", types 380, and taps a glowing emerald green "Publish Live" button. An animated checkmark ripples across the screen with text "Updated on all 24 Table QRs in 0.2s". Ultra-clean modern SaaS UI. --ar 9:16 --v 6.0

SCENE 4 · TABLE STAND-EE CATCHING SUNLIGHT

Cinematic vertical 9:16 shot of sunlight streaming through restaurant windows, illuminating a row of tables adorned with laser-engraved MenusQR royal walnut standees. Crystal-clear acrylic plates with gold QR badges gleam with luxury. High-end architectural photography, 35mm lens, f/1.8. --ar 9:16 --v 6.0

SCENE 5 · RELIEVED OWNER COUNTING SAVINGS

Vertical 9:16 cinematic portrait of the restaurant owner smiling warmly and leaning confidently against his polished mahogany counter. The restaurant in the background is bustling with happy diners effortlessly scanning their tabletop standees. A sense of relief, financial success, and modern hospitality mastery. --ar 9:16 --v 6.0

3.3 Prompts for Script 03: Dhaba to 5-Star Luxury Elevation

SCENE 1 · TRADITIONAL HIGHWAY TANDOOR SIZZLE

Vertical 9:16 dynamic action shot inside a high-end Punjabi dhaba. Sizzling copper seekh kebabs pulled fresh from a glowing red-hot clay tandoor oven, sparks flying in slow motion, clouds of aromatic tandoori smoke. Golden hour warm sunlight cutting through rustic wooden beams. Cinematic master chef aesthetic. --ar 9:16 --v 6.0

SCENE 2 · SCANNING RANG-E-PUNJAB ACRYLIC STANDEE

Vertical 9:16 shot of young diners at a polished teak dhaba table scanning a MenusQR standee with mustard yellow and gold Phulkari accents. The phone camera instantly locks onto the QR code with a vibrant golden pulse. --ar 9:16 --v 6.0

SCENE 3 · RANG-E-PUNJAB MOBILE UI HERO VIEW

Vertical 9:16 UI mock-up shot of a smartphone displaying the Rang-e-Punjab edition. Vibrant saffron yellow header, ornate folk truck-art filigree, high-res steaming butter chicken with melting dollop of white butter, Half/Full pricing badges, and desi ghee certification stamp. Pristine typography. --ar 9:16 --v 6.0

SCENE 4 · CELEBRATORY DHABA FEAST TABLE

Vertical 9:16 wide view of a wooden dhaba table completely covered with steaming copper curries, lassi tall brass glasses, garlic naans in woven baskets, and pickled onions. Friends toasting lassi glasses and celebrating. Vibrant, mouthwatering color grading. --ar 9:16 --v 6.0

3.4 Prompts for Script 04: The Half-Plate vs Full-Plate Dilemma

SCENE 1 · CONFUSED WAITER & CUSTOMER DIALOGUE

Vertical 9:16 medium shot inside an Indian curry house. A diner holds up two fingers asking about portion sizes, while the waiter scratches his head trying to explain portion differences with hand gestures over a messy laminated card. Realistic comedic tension, authentic dining interaction. --ar 9:16 --v 6.0

SCENE 2 · MACRO UI PORTION TOGGLE DEMO

Macro vertical 9:16 view of a smartphone screen showing MenusQR's portion selector. A sleek thumb taps between two golden pills: [Half: ₹260 (2 Pcs)] and [Full: ₹480 (4 Pcs)]. When toggled, the dish photo smoothly highlights portion size details. Crystal-clear intuitive UX. --ar 9:16 --v 6.0

SCENE 3 · PERFECT DISH SERVED ACCURATELY

Vertical 9:16 close-up of a waiter placing the exact steaming portion ordered onto the diner's table with a proud smile. Both customer and waiter exchange an appreciative thumbs-up. Fast, frictionless dining service. --ar 9:16 --v 6.0

3.5 Prompts for Script 05: Excel Sheet to Live 5-Star Menu in 10 Seconds

SCENE 1 · DRAGGING EXCEL SHEET INTO DASHBOARD

Vertical 9:16 clean POV shot of a modern laptop screen. A cursor drags a file named "Grand_Spice_Menu_2026.xlsx" into the MenusQR upload zone. A glowing golden border illuminates as the file drops, with progress text "Parsing 148 Dishes, Categories, and Photo URLs...". Ultra-modern SaaS aesthetic. --ar 9:16 --v 6.0

SCENE 2 · INSTANT GRID POPULATION ANIMATION

Vertical 9:16 motion-freeze shot of the MenusQR dashboard instantly populating with 12 organized food categories, pricing pills, veg/non-veg dots, and thumbnail photos. A green notification badge pops up: "100% Ingestion Complete · Zero Errors". --ar 9:16 --v 6.0

SCENE 3 · PHONE SCANNING LAPTOP SCREEN LIVE

Vertical 9:16 shot of the user holding a smartphone up to the laptop screen to scan the freshly generated QR code. The mobile screen immediately loads the complete published luxury menu in under 1 second. True magic of instant cloud sync. --ar 9:16 --v 6.0
